

Preferred BlueOption Network

Regence BlueCross BlueShield of Utah (Regence BCBSU) offers two Preferred Provider Network choices: BlueOption and ValueCare. These networks are available to members on our self-managed and consumer directed products, Regence Innova®, Engage®, ActivateSM, HSA Healthplan 2.0SM. These networks will be available with other products as they are developed.

Identifying members and Category 1 hospitals

If the **Preferred BlueOption Network** is the selected Preferred network, “BlueOption” is displayed on the member card above the product name. *Note:* The product name will not be displayed if the member’s group has purchased a customized version of one of these products.

These members receive the highest benefit (Category 1) with the lowest out-of-pocket expense when they receive services from facilities participating in the Preferred BlueOption Network.
